

Dwiz Kumar Shrivastav

Greater Noida, India | +91 8267836622 | dwizshrivastav@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Enthusiastic Information Technology undergraduate with hands-on experience in full-stack development, AI-powered applications, database management, and software engineering. Passionate about building scalable, real-world solutions and leveraging emerging technologies to solve complex problems. Seeking opportunities to apply technical expertise, innovation, and collaborative skills while continuously learning and contributing to impactful projects.

EDUCATION

Noida Institute of Engineering and Technology, Greater Noida

Bachelor of Technology – Information Technology

The Asian School, Shikohabad (2021-2022)

Higher Secondary Education (Class XII)

Vivekananda Vidyapeeth, Shikohabad (2019-2020)

Secondary Education (Class X)

Relevant Coursework: DSA · DBMS · OOPs · Web Technologies · AI-ML · Enterprise Application Design

EXPERIENCE

- **AI-ML Internship (Project-Based)** – HCL | Mar 2026 – Jun 2026
- **Machine Learning Intern (Virtual)** | Info Bharat Interns (IBI) | Sep 2025 – Oct 2025

TECHNICAL SKILLS

Languages: Java, Python, JavaScript.

Backend & Frameworks: Spring Boot, Node.js, Express.js, REST APIs, WebSocket.

Databases: SQL (MySQL), JSON

Cloud: Google Cloud Platform (GCP), AWS.

AI / ML: Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, NLP.

PROJECTS

AI Customer Support Chatbot | Java, Spring Boot, MySQL, WebSocket, JWT, LLM APIs

- Built a production-grade Java/Spring Boot app with scalable, maintainable architecture.
- Integrated LLM APIs, WebSocket for real-time communication, and JWT-based authentication.
- Debugged and optimized performance to ensure stability across concurrent sessions.

Smart Attendance System | Node.js, Express.js, MySQL, JavaScript, JWT, Machine Learning

- Built a full-stack system with anomaly detection, real-time tracking, and JWT-secured APIs.
- Applied Agile workflows; tuned ML thresholds to reduce false positives.
- Published research on proxy attendance detection – JSIAR.

Xyric – Music Streaming Platform | Node.js, Express.js, JavaScript, REST APIs, HTML, CSS

- Developed scalable REST APIs for music playback and playlist management.
- Collaborated across design and backend in a cross-functional Agile team setup.

CERTIFICATIONS

- Python Basics – University of Michigan
- Python for Data Science, AI & Development and Introduction to Artificial Intelligence – IBM
- Object-Oriented Programming in Java – UC San Diego
- Java Programming: Arrays, Lists & Structured Data – Duke University

Achievement

- Published Research Paper: "A Behavioral Anomaly Detection Framework for Proxy Attendance Identification in Web-Based Systems" in JSIAR. LINK: <https://jsiar.com/JSIAR-M-26-03200.html>
- Published Research Paper: "Product Comparison Website using SEO (web crawling)" . LINK: <https://ijsrem.com/uploads/production/Comparative-Analysis-of-Gadgets-using-Search-Engine-Optimization.pdf>
